In relation to Nadhim Zahawi MP, Mark Sexton and Warwickshire Police

In June 2021 evidence was provided to Nadhim Zahawi vaccine minister at his constituency office in Stratford Upon Avon and acknowledged by him.

The evidence was referencing Dr Bryam Bridle a consultant working on the COVID vaccines.

Dr Bridle sent out a worldwide public warning demanding the vaccines are stopped immediately because the spike protein is not staying at the injection site.

They are attacking the main organs, causing heart attacks and in particular and of huge concern damaging the lining of the uterus and the ovaries.

Within a few hours of him receiving this damning evidence Zahawi went live on national television saying the vaccine uptake is excellent and for everyone to keep taking them, no reference was made as to the concerns of Dr Bridle.

The reason he went on national TV is because a live video on Facebook that very same day was made and went viral. It was made by retired police Constable Mark Sexton who delivered and referred to the evidence in person, by hand, to Zahawi's Secretary.

Also in June 2021, Nadhim Zahawi made contact with Warwickshire Police to make a complaint of harassment believed to be against Sexton.

No criminal complaint was raised. However, it is no coincidence that also in June 2021 Sexton made a criminal complaint to Warwickshire police of Misconduct in public office against Nadhim Zahawi. The reason cited was because Zahawi knew of the harms and death the vaccines were causing but ignored the evidence allowing the harm, injury and death to continue.

Witness statements were provided to Detective Superintendent Peter Hill at Warwickshire Police that fully supported Sexton's allegations, statements from,

Dr Mike Yeadon former Vice President of Pfizer for seventeen years.

Dr Tess Lawrie an independent Medical researcher.

Lawyer Clare Wills Harrison.

Dr Tee.

Their expert evidence in statement form was damning and concerning.

The evidence was ignored by Hill.

Hill refused to contact the above expert witnesses or discuss their evidence.

Hill decided there was no evidence to support a criminal complaint.

Warwickshire police then put out an internal email to all staff about how to deal with Sexton if he enters any Warwickshire Police station.

Sexton was seen as a nuisance, an anti vaxer and someone who'd clearly lost the plot. This is bearing in mind Sexton's former employer was Warwickshire Police.

All further correspondence to Warwickshire police has been ignored.

Nadhim Zahawi was provided with extra police security and reassurances, why?
Sexton was no threat, always smart, polite, professional and at no point threatening in person or via email.
